## New Shibuya City Office Main Building to Open in January 2019

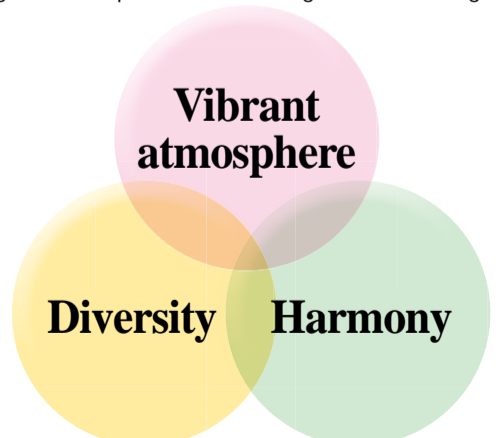

Artistic rendering of the completed main building and surrounding area

The city's new main building will be completed in October 2018, and open in January 2019. It will combine a design reflecting the vibrant atmosphere of Shibuya City and a color palette expressing diversity, and integrate the three buildings on the site through texture and harmony with the surrounding environment.

After the new main building opens, Building 1 of the temporary City Office will become a *neuvola*\* and serve other purposes until further notice, while Buildings 2 and 3 will be dismantled.

\*In Finland, a *neuvola* is a local checkup, consultation, and support center that supports expectant families and families with children who have not entered school.
